

CONTRACT SL-160

Project Location: The general area covered by Department of Environmental Resources, Contract SL-160, is located in the adjoining townships of Pine and McHenry in northwestern Lycoming County, Pennsylvania. The study area is bounded on the south by Little Pine Creek and Legislative Route 41021, to the north by Legislative Route 41024, and Pine Township Road T-764, to the east by English Run and Pine Township Road T-776, and on the west by Otter Run and its tributaries.

The project is easily reached by traveling north from the Lycoming County seat of Williamsport along state routes 220 and 287 to the village of English Center, a distance of 29 statute miles. Traveling south from Wellsboro, the Tioga County seat, the distance to English Center on Route 287 is 26 statute miles. The Little Pine State Park with its Pine Creek Dam is to be found approximately five statute miles due south of the lower reaches of the watershed that comprises the major portion of the project (SL-160) study area. (See Map Number 1, Page 7)
