

ACKNOWLEDGEMENTS

We wish to express our appreciation for the help given to us by certain individuals, government organizations and other agencies during the course of this watershed study.

In particular we wish to thank Mr. Charles Henry and the members of the Mahoning Creek Watershed Association, Mr. Walter Zimmerman and Mr. Earl Lamount of the Department of Environmental Resources for their support and cooperation.

We received excellent cooperation and much help from the property owners on whose ground we were working, and from the coal companies, both from those presently operative and from those which operated in the past.

We also thank the Pennsylvania Game Commission, the Department of Environmental Resources, The Soil Conservation Service, and The Corps Of Engineers for their cooperation during this study.
